Striving to make the world a better place.

NEEVA
Founding Engineer
June 2019 – Present
Redefining what search does for you at Neeva as a member of the founding team, doing all the startup deeds and technical acts: backend, infrastructure, and data

CZI
Software Engineer
March 2018 – June 2019
Building a better future at Chan Zuckerberg Initiative on the Education and Justice & Opportunity teams, working primarily on data/backend engineering and culture

PLAID
Software Engineer
January 2017 – March 2018
Responsibilities in building and expanding product features, recruiting and interviewing, and working with the team to help make Plaid even more wonderful

TINDER
Software Engineering Intern
September 2016 – January 2017
Improved developer happiness at Tinder as a result of creating new engineer on-boarding processes and making a fully featured and reliable development environment

FACEBOOK
Software Engineering Intern
June 2016 – September 2016
Helped make Facebook a trusted platform by constructing internal tooling and frameworks that significantly reduce the overhead needed to deploy privacy features

ARISTA NETWORKS
Software Engineering Intern
June 2015 – September 2015
Prevented large scale network failures after addressing multiple performance issues in MLAG split brain logic and designing new features to aid in error recovery
